

School House Teaching Supplies Presents: A Full Day Summer Workshop with Adrienne Gear

**Join BC teacher, author and speaker
Adrienne Gear for a “Powerful”,
Practical Summer Pro. D. Day!**

Adrienne will be focusing on her ***Writing Power*** book, sharing ideas for setting up an effective process-based writing program. Strategies revolving around effective formative assessment and conferencing will also be highlighted. From her new book, ***Powerful Understanding***, she will be exploring two important core competencies – effective ways to build social, emotional skills while promoting critical thinking.

Adrienne will share lessons and student samples and, as always, you will come away with a list of great new anchor books and be ready to teach your students to think critically and reflexively AND be confident, caring citizens!
