PURPOSE OF HANDBOOK

This handbook is intended to provide information and guidance for members of the Professional Development Committee, school-based Professional Development Representatives and District teachers.

Throughout the year, a multitude of questions arise concerning workshops, funding, procedures and guidelines and hopefully some of these can be answered by a quick referral to this handbook.

Items in this handbook are not regarded as policy but as guidelines and suggestions. Suggestions for additions, deletions and amendments are welcome and appreciated.

MISSION OF BCTF: PROFESSIONAL DEVELOPMENT

Educational Leadership

The essential basis of educational leadership is vision. The federation's vision is summed up in the following statement:

9.A.01 - (a) The broad aim of the public school system should be to foster the growth and development of every individual, to the end that he/she will become and be self-reliant, self-disciplined, participating member with a sense of social responsibility within democratic society.

Effective professional development integrates the following dimensions:

- A vision for students, teachers and society;
- An assessment of the current situation in which students live and grow;
- An understanding of relevant research findings and educational theories to guide both teaching practices and educational change;
- Goals, objectives and activities within a long-term professional development program.

In accordance with policy 9.A.01 (a), it is through knowledge, skills and example of teachers that schools foster the growth of students into autonomous, socially responsible citizen. Specifically, teachers help to educate their students in the following ways:

- Through philosophical understanding of the aims, goals and values of education for a society that is just, democratic and peaceful and that supports its citizens in their pursuit of happiness and fulfilment;
- Through knowledge about teaching practice based on research and experience;
- Through understanding current affairs and social developments such as technological changes, cultural changes, and the arms race, which affect the context in which teaching and learning occur;
- By applying skills and understanding developed through formal and informal training, through feedback and coaching for colleagues, and through practice in the classroom;

- Through serving as role models of a caring and understanding, resourceful, responsible, self-directing adult who is committed to learning and personal growth and who exhibits honesty, openness, and integrity;
- By planning and organizing learning experiences appropriate for their students.
- By participating within the teaching profession in developing new knowledge concerning teaching and learning, in sharing information, materials, and knowledge with colleagues, and in supporting the development and enforcement of professional standards;
- By participating as educational leaders within the community, e.g., serving as an advocate for education, helping the community to understand the connections between the conditions for teaching and learning and the quality of education, and to appreciate the types of changes required in the schools.

A major goal of the BCTF is to work co-operatively with other groups and agencies to transform the public schools to make them more relevant and elective in preparing students for their futures.

PROFESSIONAL DEVELOPMENT - A PHILOSOPHICAL DEFINITION

Professional Development:

- increases awareness of good professional practice;
- brings about changes in professional practice which best reflect the needs of the times;
- enriches the lives of the professionals in practice.

For whom is the service intended?

- individual professionals;
- self-selecting groups of interdependent professionals;
- identifiable groups of professionals undertaking change.

Why is the service desirable?

- to update the practice of teaching in a growth oriented profession;
- to augment the practice of professionals anxious to accommodate change;
- to highlight specific skills common to exemplary practice under model professional circumstances.

Who initiates the service?

- the individual educator: a teacher chooses the appropriate conference on topic for professional development.
- groups of educators bound by common need: a PSA, or like-subject group, organizes necessary professional development.
- colleagues responsible for monitoring and promoting professional practice: principal or school board staff member promotes professional development.

How is the service delivered?

- through school and district workshops and seminars;
- through the selection of appropriate out-of-district in-service;
- by encouraging an atmosphere of collegial support and exchange;
- through teachers' active participation in contractual guaranteed Professional Development Days.

Professional development is the dialogue of ideas when engaged in professional exchange.

The outcome may be:

- growth of confidence;
- change of practice;
- a refining of professional development.

PROFESSIONAL DEVELOPMENT - A PRACTICAL DEFINITION

Professional Development for teachers can be defined as any activity or set of activities, driven by teachers, which enhances their own professional interests and skills related to work they may do with students. It increases awareness of good professional practice and brings about changes in professional practice which best reflect the needs of the times.

DECLARATION OF CONTINUING EDUCATION PRINCIPLES

The following declaration is a statement of policy representing collective professional opinion of members of the BCTF. It is based on values and principles that reflect a democratic perspective on public education and is intended to provide a provincial standard of continuing education principles.

1. It is the responsibility of the individual teacher to make a continuing effort to develop professionally.
2. Participation by teachers in professional development is a voluntary activity.
3. An effective needs assessment process should be the starting point of professional development. Planners of professional development should work as colleagues with the users in identification of needs, the planning of the training, and the continuing tailoring of the activities to fit the teachers' needs.
4. Professional development activities should include the growth of competence, collegiality, influence, social and personal development, and health.
5. Effective professional development requires a commitment of adequate resources, time and organizational support.
6. The individual teacher should be given the opportunity and the time to pursue his/her professional development activities.
7. The organization and delivery of professional development programs are most effectively achieved at the school staff level or with other intact groups.
8. Effective professional development activities incorporate presentation and discussion, demonstration and modelling, and practice with feedback.
9. Collegial support, on-site coaching and ongoing support should be available to the individual teacher to allow for adequate internalization.
10. The idea of teachers teaching teachers should be promoted in the provision of professional development programs.
11. Professional development programs should incorporate a wide repertoire of teaching approaches, and no one professional development program should be viewed as a universal panacea for the improvement of instruction.

- k. Teachers who are travelling out of province for professional development are required to complete an out of-province travel form which can be found on the ESS, under the My Dashboard tab, under the heading Miscellaneous. This form is approved by the Superintendent and could be an important piece in protecting you should a WCB claim occur while you are away. Teachers are also encouraged to contact Pacific Blue Cross to inquire about members' travel insurance and purchase additional insurance if required. Travel insurance is not considered a Professional Development expense for reimbursement purposes.

2. Application Procedures:

3. Teacher on Call Charges:

It is essential that the teachers code their absences correctly into the ESS automated call-out system when a TTOC is used for professional development release.

- a. The teacher will code the absence into the ESS automated call-out system as “Pro-D – Billed to STA” in order for the school district to bill the STA for the cost of TTOC days.
 - b. The STA Pro-D Chairperson will provide the school Pro-D representative with a report of expenditures, including TTOC days billed to the school account, on a regular basis and/or upon request.
 - c. The district office will provide an invoice to the STA for TTOC costs at a flat rate reflecting the current TTOC average billing cost \$356 (as of March 1, 2018) per 1.0 FTE and provide a printout of school-by-school information which outlines the name of the TTOC, teacher replaced, school, TTOC time and cost.

When there is a joint professional development where costs such as facility or speaker are shared between the School and STA Pro-D funds, the cost will be paid by the School District and then reimbursed (partially or fully) by the STA.

TEACHER TEACHING-ON-CALL PROFESSIONAL DEVELOPMENT POLICY

School District #63 wants to support the professional development of our TTOCs. The board provides \$7500.00 per year to be used for professional development workshops and resources for TTOCs. The Joint Professional Development Committee oversees, administers and reviews the use of funds.

Details of accessing personal professional development money is as follows:

- a. Amount not to exceed \$250.00 in one school year. For conferences located in Nanaimo (or north) and/or off the island, this amount will be increased to \$500. This additional funding will be distributed on a first-come, first-served basis and will be available for the full school year or until we have spent down the fund to a point where we have a \$5000 balance of roll-over money (whichever comes first).
- b. 8 call-outs needed in the current school year prior to applying
- c. Receipts to be provided with TTOC Pro-D form (available at all schools, STA website, or at the STA office)
- d. All Pro-D claims must be submitted prior to June 1st of that school year. Members, who miss the deadline, may apply for special consideration to the Joint Professional

- Development Committee who will review the circumstances surrounding the late application. This process will occur in September of the following school year and will also be dependent on the amount of money left in the TTOC Pro-D account.
- e. TTOCs who also hold a temporary contract may access the TTOC Pro-D account or their school-based account, but not both.
 - f. TTOCs who wish to appeal a decision can do so in writing. Correspondence should be sent to the STA office, ATTN: Pro-D Chairperson.

Once the fund is depleted, the Joint Professional Development Committee will revise the policy on use of these funds.

PROFESSIONAL DEVELOPMENT - PRIORITY FUND FOR SPECIAL PROJECTS

These funds are available to all groups of members of the Saanich Teachers' Association on an equal access basis. Since the funds are taken from the overall funds available to the Saanich Teachers' Association they are limited each year. Teachers should expect to share these funds based on the priorities set by the Saanich Teachers' Association and its Professional Development Executive Committee which is responsible for allocating these funds each year. Groups should not expect to monopolize the available funds for any particular group. A guideline would be that no group should expect to receive more than three thousand dollars (\$ 3,000.00) in a given year.

1. Application:

- a. Application information (this package) will be distributed to the Pro-D reps prior to the 31st of March.
- b. Pro-D reps will make this information available to all STA members as soon as possible after receiving it recognizing that completed applications must be received prior to the 30th of April.
- c. Applications must be made in writing to the Professional Development Executive Committee by way of its chairperson. Applications must be received by the chairperson prior to the 30th of April for projects and LSA grants in the next school year.
- d. The chairperson will make and distribute copies of all applications to each member of the Professional Development Working Committee prior to the 15th of May and will convene a meeting of this committee prior to the 30th of May to consider each of the applications.
- e. The Professional Development Working Committee will review all applications and make appropriations based on the merit of each one in relation to the criteria and priorities established by the Saanich Teachers' Association Executive and the Professional Development Executive Committee for that year.
- f. Applicants are to be informed (at least verbally) of the committee's decisions no later than the second working day in June.
- g. Application forms are available on the Saanich Teachers' Association website under the Pro-D link.
- h. Send completed applications to STA PD Chairperson at the STA Office.

2. Criteria:

- a. Priorities will be established annually by the Saanich Teachers' Association and its Professional Development Executive Committee. These priorities will be established as a result of input from all interested STA personnel in the district.
- b. It is desirable that these projects, directly or indirectly, service as many teachers and students as possible.
- c. Projects may be developed to address special circumstances and priorities that may arise periodically within the district.
- d. The size of the grants and the number of projects funded will be determined by the total amount of funds available for use in this area.

- e. Any school staff wishing to have funds for a staff function such as a retreat or activity off campus must indicate at least 25% of the funds needed to support teachers are coming from sources other than Professional Development funds allocated through the Collective Agreement.
- f. In joint ventures between the STA and the School Board, applicants must indicate that at least 50% of the funds are coming from sources other than the STA.

3. Conditions for the Grant:

- a. If a project is delayed, the group may keep their grant to undertake the project the following school year. In this event written notice to the Professional Development Executive is appropriate.
- b. If a project is canceled, the funds are to be returned to the general professional development fund for reallocation either in the current year or in the subsequent year.
- c. If the project leader changes the nature of the project or the types of expenses that will be incurred, it is his/her responsibility to seek prior approval from the Pro-D Chairperson.
- d. All funds remaining at the end of the project or project year are to be returned to the general Professional Development fund for other uses unless the Professional Development Executive Committee has approved the groups' continued use of the funds.
- e. All Local Specialist Associations must have a duly elected executive. Each LSA must have submitted a copy of the list of elected officials along with a copy of the LSA's constitution to the Professional Development Executive Committee prior to receiving any allocated funds.
- f. All communications regarding the project must clearly acknowledge the financial support of the STA.
- g. Project leaders may be asked to share their projects with other teachers in the district.

4. Accessing Funds:

- a. It is important that each of the teacher groups receiving funding have a contact person since only that person will be able to request funds from what has been allocated for the project. Each project leader will be expected to meet with the STA Pro-D Chairperson to clarify policies and processes specific to their application.
- b. All funds and accounts will be administered by the Professional Development Chairperson following a format approved by the (Joint) Professional Development Committee.
- c. All excess funds will be returned to the general STA Professional Development Fund at the end of the school year in which the project was to be conducted, unless the Joint Professional Development Committee has approved a continuation of the use of the funds for the project. All unused funds will be reallocated based on the needs identified by the Joint Professional Development Committee.

HONORARIA FOR DISTRICT TEACHERS

1. Teachers who present workshops in the district for their colleagues should receive a letter of appreciation from the sponsoring department, LSA or association.

EVENTS AND ACTIVITIES FOR PROFESSIONAL DEVELOPMENT

Professional Development activities and events can be posted on the STA website's Pro-D page. Please forward any information on upcoming activities or events to the STA Pro-D Chairperson for uploading to the website.

It is the responsibility of the organizing person or group to circulate to the Professional Development reps at the schools all information pertinent to the activity, such as registration, funding details, description and target audience.

PROFESSIONAL DEVELOPMENT OUTSIDE OF THE REGULAR SCHOOL YEAR

Past practice in the Saanich School District has been for some teaching staffs to engage in a day of professional development in the summer, in exchange for a lieu day in the school year. According to the collective agreement, the lieu day chosen cannot be the October professional development day and cannot be the February professional development day (F.4.2). All other days are free to select as lieu days in a collaborative process with the administration (B.38).

If the teaching staff is considering a summer professional development day activity, the following procedures are commonplace and should be occurring:

- Teaching staff should be actively engaged in determining if there will be a summer day and in setting the agenda for that day. The topics selected on that day should be directed by the needs of the teachers in the school as determined by the teachers themselves.
- Teachers hired after the school year starts will not be deducted pay. They will engage in Pro-D on the regularly scheduled Pro-D day.
- Any costs that may be incurred from a summer professional development day, such as the cost of a guest speaker, can be paid for by the administration, by the school-based professional development fund or a combination of the two. **CAUTION: Any money that is taken from your school-based account will result in less money available to teachers throughout the entire school year. Spending decisions should be made in alignment with your school-based professional development policy and should be voted on by teaching staff, considering the negative impact this could have to teachers.**

Teachers do have the right to refuse professional development that occurs outside of the regular school year as defined in article D.14.a, b, c of the Collective Agreement. For example, if the teaching staff has chosen August 31 as their Pro-D day and they plan to take November 12 as their lieu day, any teacher can participate in the Pro-D on November 12 instead of coming in during the summer. Clearly communicate these intentions with your administrator and Pro-D Rep. Also note that the union can neither negotiate nor approve different lieu days on your behalf for Pro-D activities. Lieu days are at the sole discretion of the employer.

PROFESSIONAL DEVELOPMENT AND PART-TIME TEACHERS

Part-time teachers should maintain their regular teaching schedule during any non-instructional day. If the day falls on a non-working day, you can choose to stay home. If

they day falls on a non-working day and the teacher wants to take part in the event, the teacher can speak to the administrator and investigate the feasibility of changing his/her schedule for that week. Keep in mind that any changes are at the discretion of the administrator.
